

Alberta Wheat Pool Operations

At the annual meeting of the seventy elected delegates of the Alberta Wheat Pool which started in Calgary on Tuesday of last week it was reported that the surplus for this year, ending July 31st was \$2,448,186. This was a decline of \$202,631 from the surplus in the preceding year.

Handlings of Alberta Pool Elevators at 56,186,415 bushels were down about 234 million bushels from the previous year, due to grain congestion and the method used in distributing railway grain cars. In their reports, both the board of directors and the manager of the Wheat Pool, A. T. Baker, protested that the system of car distribution in western Canada from the Wheat Pool, as it presents Pool members from using their own facilities to the fullest degree.

During the business year in review the Alberta Wheat Pool distributed \$2,496,099 in patronage dividends, involving a cash distribution to member patrons of Pool elevators of \$687,086, and distributed reserve credits of \$1,809,000.

Since the Alberta Wheat Pool was organized it has paid out \$6,266,156 in cash patronage dividends, and has purchased securities from the membership totalling \$9,122,397. Last year alone such reserve purchases totalled \$600,672 to members who have ceased farming and to the estates of those who have passed away.

During the past year 2,314 new members joined the Alberta Wheat Pool.

As at July 31, 1964, the Alberta Wheat Pool owned 507 country elevators, 2 terminals, 397 dwellings, 42 coal and fuel sheds and 606 country annexes. The members' equity in the fixed assets and working capital totalled \$11,404,922, equal to 128.5% of outstanding reserves.

More Modern Cars on C.N.R.

Recently modernized touring coaches have been added to the Canadian National Railway's Continental Limited trains between Montreal, Winnipeg and Vancouver.

These new coaches, equipped in the company's new style, are a further step in the C.N.R.'s modernization program. One of the new coaches is in train, continental service. Features include modern seating, comfortable interiors, aisle seats, fixed double glass windows, a large dining room for meals, and modern restrooms.

The latest coaches have 14 sections and a small kitchenette where passengers can prepare meals and beverages if they wish.

The undercarriages have been modified to provide smooth riding for passengers using luggage compartments.

- Good in coaches only.
- No stopovers.
- Baggage may be checked.
- Includes 100 lbs. baggage.
- Half Fare.
- Children under 16, travel Free.

Equal to any lowest Canadian National fare.

Obituary

Lloyd Kiskick

The death occurred in Hanna Hospital of Lloyd Kiskick, on Tuesday, November 23rd, 1964, following a short illness.

Mr. Kiskick was born at Bosch Grove, Quebec, June 25, 1900, and was 54 years of age. He formerly resided in Delia, and was a member of the Delia District in the summer of 1960. During his residence in Delia his principal occupation was carpentering, but had previously done some mining and farming.

Deceased leaves surviving his wife, Lillian Frances Kiskick; three brothers, G. W. Kiskick, West Vancouver; E. F. Kiskick, Louis Grove, B.C.; P. D. Kiskick, of Delia; and two sisters, Mrs. G. W. Kiskick, and J. Herbert, both of Ottawa.

Funeral services will be held Friday, December 10th, 9:30 a.m., at the Delia United Church, with Rev. T. D. Seeley, Delia, Inter-Denominational Church officiating, and a full choir in attendance, and a full choir in attendance.

Hymns sung were: "My faith looks up to thee," and "Abide with me."

Mrs. J. Whitman and Mrs. B. King sang a duet, "Beyond the Sunset."

Palbearers were: Messrs. George Morrison, Bruce King, Roy Koy, Dave Dault, Stewart Sloan, and Frank Todd.

Interment took place in Delia Cemetery.

Whyte & Bellis Funeral Home of Hanna, had charge of arrangements.

Xmas Jamboree Dec. 18 For the Younger Folk

On Wednesday evening last a well attended meeting of business men and others gathered in the Town Hall, the purpose being to organize a Christmas entertainment for the children of Delia and district.

Mr. Robt. Gibson occupied the chair, and Mr. B. Hamilton acted as secretary.

Various matters were discussed, and committees appointed to carry out the proceedings. A minimum fee was set to be collected from each member, as this was deemed sufficient to carry out the program. It was the opinion of some that the business men and elevators should contribute more liberally, but this was not agreed upon. It was objected to be classed as business men, as they were only wage earners.

The undercarriages have been modified to provide smooth riding for passengers using luggage compartments.

Victor Ladies' Club

The monthly meeting of the Victor Ladies' Club was held at the home of Mrs. J. Wilson on November 24th, with twelve members present.

The minutes and treasurer's reports were read and approved. Plans for our annual December party followed, and the arrangements were made. This year it will be held at the home of Mrs. J. R. Thompson.

After this, a discussion followed on how we could improve our annual supper and bazaar. After the meeting adjourned, a delicious luncheon served by the hostess, Mrs. J. Wilson.

Mrs. R. Farwell held the lucky number, and was the winner of the surprise parcel.—Cos

Canadian Trade

Canada's trade this year appears to be running at an annual deficit rate of \$800 million with the United States and an overseas surplus of \$300 million. This is a record for Canada, such as to overcome the deficit and provide a surplus of around \$80 million.

GREY CUP

Exploring New Outlets For Wheat

A good deal of interest is attached to a study now being made by the U.S. Department of Agriculture with respect to the exportation of wheat from ancient times. It is thought, might provide a new outlet for some of the surplus wheat stocks in U.S.A. The problem is nothing less than "Roughness," or parcelling wheat, which was used by the ancient Babylonians and other peoples 4,000 years ago, and which is still mentioned in some areas of the Middle East.

There is an olden tradition of wheat here between two of Toronto's Argonaut football stars, Can Krol and Dick Skatto, and singer Terry Dore. Terry had roots in British Columbia, and this feeling of kinship between east and west did definitely not exist on the football field on November 27, when the Canadian Grey Cup classic took place. The games were seen on all Canadian television stations, either live or delayed through the CBC-TV network, as well as the Dominion network.

Correspondence

The following letter was received by Mr. and Mrs. A. C. Kohner, who farms 108 miles north of Delia, in reply to finding some colored Indians in a group of bushes on their farm Sunday Oct. 22nd. Attached were tags explaining their source of origin. We print the letter below, which speaks for itself.

Dear Mr. Kohner—Received your letter dated Nov. 17th with my jacket attached. I am so glad you returned the ticket and letter to me before where balance handed, as I was anxious to know if any had been found. I have a new Union Oil Service Station located here in Delia, Idaho, U.S.A. I had my Grand Opening Oct. 18, 1964. That day I received 1000 bushels of wheat from the same 988 a.m. and had a big light shining on them as they were being delivered. So they traveled quite a distance in a short time, due to a very good current. I figure it is around 1,000 miles and distance; however, about six miles.

I am keeping the ticket and your letter in the Union Oil Co. office, as they will be very interested in it, as they were also when they were received.

I thank you very much for your interest and if you are ever in Boise, Idaho, U.S.A., would be very happy for you to come in so I may make your acquaintance. Thanking you again.

Sincerely yours,
BOB JONES

There Is Too Much Butter

There appears to be a glut of butter throughout the U.S. The United States has a surplus of 440 million lbs. in storage, the Netherlands 27 million, Switzerland 4 million and Portugal 12 million lbs. France has such heavy overproduction that the government is considering a curtailment of output and an increase of cheese manufacturing.

The better consumption on an annual per capita basis in some countries is as follows: New Zealand 44 lbs., Ireland 40 lbs., Australia 30 lbs., Canada 20 lbs., Great Britain, West Germany 16 lbs., Sweden 13 lbs., and the United States 8.6 lbs.

In the U.S. the butter consumption in 1940 averaged 17.4 lbs. per capita per annum. Margarine production has increased from 363 million lbs. in 1941 to 1,292,000,000 lbs. in 1963. The U.S. domestic price of butter is 95 cents and the export price around 41 cents.

During 1961 Canada's butter production industry produced 272,740,000 lbs. of butter.

Canada's butter production industry produced 272,740,000 lbs. of butter.

Canada's butter production industry produced 272,740,000 lbs. of butter.

SEEDTIME AND HARVEST

By L. F. J. GIBNEY,
Director, Research Department, Senior Grain Co., Ltd.

ON STORING DAMP GRAIN

Living to the limit, not harvesting, is the problem of storing "tough" and "damp" grain will have to store it themselves as grain is not available in country and overseas.

"Tough" Grain. With proper protection it should not be too difficult to store. However, the time, labor, and money to store it are very important points. (1) As long as moisture content is the key factor in the storage of grain, the more grain you get to dry, the better. (2) If you have to store grain, you can get it to dry by using a fan. (3) If you have to store grain, you can get it to dry by using a fan. (4) If you have to store grain, you can get it to dry by using a fan. (5) If you have to store grain, you can get it to dry by using a fan. (6) If you have to store grain, you can get it to dry by using a fan. (7) If you have to store grain, you can get it to dry by using a fan. (8) If you have to store grain, you can get it to dry by using a fan. (9) If you have to store grain, you can get it to dry by using a fan. (10) If you have to store grain, you can get it to dry by using a fan. (11) If you have to store grain, you can get it to dry by using a fan. (12) If you have to store grain, you can get it to dry by using a fan. (13) If you have to store grain, you can get it to dry by using a fan. (14) If you have to store grain, you can get it to dry by using a fan. (15) If you have to store grain, you can get it to dry by using a fan. (16) If you have to store grain, you can get it to dry by using a fan. (17) If you have to store grain, you can get it to dry by using a fan. (18) If you have to store grain, you can get it to dry by using a fan. (19) If you have to store grain, you can get it to dry by using a fan. (20) If you have to store grain, you can get it to dry by using a fan. (21) If you have to store grain, you can get it to dry by using a fan. (22) If you have to store grain, you can get it to dry by using a fan. (23) If you have to store grain, you can get it to dry by using a fan. (24) If you have to store grain, you can get it to dry by using a fan. (25) If you have to store grain, you can get it to dry by using a fan. (26) If you have to store grain, you can get it to dry by using a fan. (27) If you have to store grain, you can get it to dry by using a fan. (28) If you have to store grain, you can get it to dry by using a fan. (29) If you have to store grain, you can get it to dry by using a fan. (30) If you have to store grain, you can get it to dry by using a fan. (31) If you have to store grain, you can get it to dry by using a fan. (32) If you have to store grain, you can get it to dry by using a fan. (33) If you have to store grain, you can get it to dry by using a fan. (34) If you have to store grain, you can get it to dry by using a fan. (35) If you have to store grain, you can get it to dry by using a fan. (36) If you have to store grain, you can get it to dry by using a fan. (37) If you have to store grain, you can get it to dry by using a fan. (38) If you have to store grain, you can get it to dry by using a fan. (39) If you have to store grain, you can get it to dry by using a fan. (40) If you have to store grain, you can get it to dry by using a fan. (41) If you have to store grain, you can get it to dry by using a fan. (42) If you have to store grain, you can get it to dry by using a fan. (43) If you have to store grain, you can get it to dry by using a fan. (44) If you have to store grain, you can get it to dry by using a fan. (45) If you have to store grain, you can get it to dry by using a fan. (46) If you have to store grain, you can get it to dry by using a fan. (47) If you have to store grain, you can get it to dry by using a fan. (48) If you have to store grain, you can get it to dry by using a fan. (49) If you have to store grain, you can get it to dry by using a fan. (50) If you have to store grain, you can get it to dry by using a fan. (51) If you have to store grain, you can get it to dry by using a fan. (52) If you have to store grain, you can get it to dry by using a fan. OUR COMPLETE SHORT STORY—

The chickens were laughing

—By BASCOM BIGGERS III

SUBAN waved a last goodbye, then, when her sister's brother-in-law did not of sight and could not see it, and then went back into the house. They were gone and she had not seen them. She was a little faintly, as though they could hold the team in check, and she was laughing at the thought. Her sister had insisted on helping with the dinner before they left. The kitchen folk. That didn't mean, though, the girl the sister.

Fine, and back, though they could hold the team in check, and she was laughing at the thought. Her sister had insisted on helping with the dinner before they left. The kitchen folk. That didn't mean, though, the girl the sister.

The hopping of the heavy foot was a steady sound, and she was laughing at the thought. Her sister had insisted on helping with the dinner before they left. The kitchen folk. That didn't mean, though, the girl the sister.

The least humming of the teakettle, and she was laughing at the thought. Her sister had insisted on helping with the dinner before they left. The kitchen folk. That didn't mean, though, the girl the sister.

"Oh no, honey, I'll manage him all right," George had said. And she had wanted to go, oh, right. "I think I'll better not," she said. It was a steady sound, and she was laughing at the thought. Her sister had insisted on helping with the dinner before they left. The kitchen folk. That didn't mean, though, the girl the sister.

Helps You Overcome FALSE TEETH

Looseness and Worry

There is a new method of removing false teeth, which is so simple and so effective, that it has been adopted by the most prominent dentists in the world. It is a method which is so simple and so effective, that it has been adopted by the most prominent dentists in the world.

CANADIAN FARM LOANS

This year, the Canadian Farm Loan Board, a federal government agency engaged in making long term mortgage loans to farmers, issued its 25th annual report. In its 25 years of operation, the Canadian Farm Loan Board has lent \$91,548,192 to some 39,415 Canadian farmers. During the past year, a total of \$7,350,750 was approved for loans, an increase of approximately \$2,000,000 over the previous year.

During the year ending March 31, 1954, 2,991 second mortgage loans and 5,091 first mortgage loans were approved. The average loan made was \$3,740. Out of every five loans made in 1954 was for over \$6,000.

Farm Loan Board loans are available only to farmers actually farming the land offered as security and are made for such purposes as purchasing livestock and farm implements; paying debts; assisting in the purchase of farm land; making farm improvements; etc.

Report shows they spent nearly as much of it (22 per cent) on automobiles, tires, gasoline, etc., as they spent on foodstuffs (24 per cent). On clothing they spent only 10.5 per cent. They spent twice as much on alcoholic beverages (4.7 per cent) as on footwear (2 per cent), and more on cigars, cigarettes, tobacco (1.8 per cent) than on furniture (1.7 per cent).

In Ontario and the Prairie Provinces, people actually spent more on automobiles and ac-

sociated commodities than they did on food; 22.8 per cent against 22.2 per cent in Ontario, 22.1 per cent against 19.5 per cent on the prairies.

Report shows that small retailers still dominate the Canadian market. Independent stores accounted for 74.8 per cent of total commodity sales in 1953, chain stores for 16.6 per cent, department stores for 8.6 per cent. Independent stores led in sales of all commodities except dry goods and notions, where department stores were ahead.

Local and District

Ronnie Hands has accepted a position with Alberta Tractor Parts Co. in Edmonton.

Mrs. McNeill, of Calgary, is a visitor at the home of her daughter and son-in-law, Mr. and Mrs. F. Isaac.

As will be noted by advt., Charles E. Hamilton has moved the location of his fire insurance office from the Town Hall to the old telephone office.

The fine weather is now ended and winter has set in with overcast skies and light snow. At this writing (Wednesday) the temperature is 29 above.

Robert Hands is now assistant agent with the A.P. Grain Co. at Three Hills.

Mrs. L. Battle was a bus visitor to Calgary on Friday of last week.

As will be seen by advt., next Saturday, Dec. 4th, is turkey night at the local Legion Hall. Remember to be on hand and win a fine Xmas turkey.

Sam McElt was conveyed from his farm to the Hanna Municipal Hospital on Monday, 22nd Nov., 1954, by White's Ambulance Service, of Hanna.

As will be seen by advt. next Tuesday and Wednesday, Dec. 7 and 8, is bargain days on the C.N.R., between Saskatoon and Calgary. Reduced fares from all points.

OLDSMOBILE ROCKETS INTO 1955!

POWERED BY THE NEW
"ROCKET" 202 ENGINE!

None is everywhere from road to roof! And when you swing wide a door you open a worldland of rich fabrics and leather, deep carpets, delightful trim. Performance reaches new heights, too! The new "Rocket" 202 Engine is up in comparison to 8.5 to 1... and horsepower zooms in 202! Of course, all power features are available, "Oldsmobile" 55 is in our showrooms now... come in and see it!
